

Hello Band and Guard Family!

Powertops will be coming home Saturday night to be washed.

(Guard, I am sure your uniforms will be coming home also. Please carefully follow the instructions that Mrs. Lowe has sent you.)

The washing instructions need to be followed to ensure that your powertop/guard uniform is cared for properly. Not following these instructions could result in damaging or possibly ruining your powertop/guard uniform, which will then have to be replaced at your expense.

Powertops = \$100.00 + shipping.

Guard uniform cost is greater than \$100.00 + shipping.

Please see the handbook for complete details concerning replacement costs.

The above prices are based on bulk pricing.

Here are instructions for washing instructions for your **POWER TOP**

1. Use Spray'n'Wash or Shout on any stains. Especially make-up stains, neckstrap stains, arm pit sweat stains, and sleeve cuffs. (Do not leave stain remover on too long before washing. We want it to remove the stain, but not the color of the fabric.)
2. Use a mild detergent. DO NOT USE BLEACH. DO NOT USE ANY FABRIC SOFTENER OF ANY KIND.
3. Wash on hand wash cycle in cool water. If your machine does not have a "hand wash cycle", you need to hand wash in a clean sink.
4. DO NOT DRY IN DRYER! EVER!!! Lay flat to dry. The material is too heavy to hang. We do not want any stretching.

If you have questions, please ask. We would rather you ask than ruin your powertop/uniform.

Band - send questions to Mrs. McBrayer mcbayerj@ymail.com

Guard- send questions to Mrs. Lowe hlowe22@me.com

Please have all clean items returned to school by Tuesday, October 2nd.

Again, please follow these instructions for **powertops only**. Guard, be sure to follow Mrs. Lowe's instructions carefully for washing of your uniforms.

Thank you,
Jenny McBrayer
